1. Introduction

Purpose

This File Creation Parameters (FCP) document is intended to provide a clear set of rules and specifications for creating the CDE required file Student National Origin Report (SNOR) from records submitted by Local Education Agencies (LEAs) that are participating in CSIS. This document is under very strict version control and is to be updated and released simultaneously with new releases of the CSIS Data Dictionary, SRRTS Code Tables, SRRTS Validation Tables and SRRTS File Formats.

This document is created and maintained by California Department of Education, Education Data Office.

Document Conventions

The title page and header of this document contain a version number in the form X.Y.Z where:

X is the version number in sequence 1 through N

Y is the revision number in sequence .1 through .N

Z is the errata correction number in sequence .1 through N

The version number of the document correlates directly to the school year that the document will be implemented in CSIS production systems. School year 2004-2005 is represented by version 5.Y.Z. In this example, the first published version of the document would be numbered 5.0. Each new version represents substantial change to the document (for example, adding or deleting elements, work products or processes) and will be serially numbered to the right of the first decimal (for example 5.1, 5.2,) once CSIS management has approved it. Minor revisions (that is, format or spelling) will retain the version and revision number and only increment the correction number to the right of the second decimal (for example 5.0.1, 5.1.1, 5.1.2). CSIS software systems are sensitive only to the Version revision number (e.g., 5.1). Correction numbers are not entered into CSIS software systems.

Intended Audience and Reading Suggestions

The primary audience intended to read this document are the technical staff responsible for transitioning the CDE paper based aggregate reporting system to the new State Reporting and Records Transfer System (SRRTS). These are the CDE Program technicians and the programming staff writing the aggregation routines. The software quality assurance staff should also use this document to create test plans.

Readers should first familiarize themselves with the CSIS Data Dictionary, CSIS Data Dictionary Code Tables and the File Transmission Formats before reading this document.

References

The following documents will assist the reader in gaining a full understanding of the requirements and are specifically referenced by each of the form/file aggregate definitions included in this document. These reference documents explain the actual content and source of information for the aggregations defined here:

Document Name	Version	Published date
CSIS Data Dictionary	5.3	April 15,2004
CSIS Data Dictionary Code Tables	5.3	April 15,2004

Required CSIS Data Elements and Valid Codes

The following table contains all CSIS data elements (from *CSIS Data Dictionary version 5.3*) and related File formats (from *CSIS File Transmission Formats 2004-2005*) that are used in the creation of the CDE data elements specified in this document. Also included are valid codes for these CSIS data elements where codes are defined either in the *CSIS Data Dictionary version 5.3* or the *CSIS Data Dictionary Code Tables version 5.3*. The codes that are included are only those that are valid for creating CDE data elements in this document and may be a subset of all codes listed in the CSIS reference materials.

2. File Creation Parameters for Student National Origin Report (SNOR)

Description

Physical File Name: Student National Origin Report (SNOR)

Description: The Student National Origin Report is used by California school districts participating in State Reporting. The Report is used to provide Local Education Agency (LEA) district level information for the purpose of identifying Title 3 eligible immigrant student enrollment counts by country of origin.

Related hard copy form:

Form name: Student National Origin Report (SNOR)

Form date: Revised (05/11/2004)

Definitions:

<u>Current School Year:</u> The current school year 2005 is the period from July 1, 2004 through June 30, 2005.

Prior School Year: The prior school year is the period from July 1, 2003 through June 30, 2004.

SNOR Census Date: October 6, 2004 (which is the same date as CBEDS Information Day).

Reporting Entity: The term Reporting Entity is used to represent

1: A CSIS-participating district or

2: A direct-funded charter school within a CSIS-participating district

<u>Eligible Immigrant Student:</u> Under Title 3 of the No Child Left Behind Act, All local education agencies (LEAs) in California are required to submit an annual count of eligible immigrant students. Eligible immigrant students are defined in statue as students who (1) are enrolled in K through grade 12, (2) are foreign-born, and (3) initially enrolled in any school in the United States or its territories within the most recent three school years (DE 05.20 First Enrollment in a U.S. School).

Note: Additionally, CDE has determined that if a student first enrolled prior to the most recent three school years, the student is still an Eligible Immigrant Student if there was a gap in enrollment such that the student was actually enrolled for a total of less than three full academic school years prior to the SNOR Census Date (DE 02.06 Schooling In the United States).

Selection Criteria Name: SNOR-Enroll

These are K through 12th grade students who are enrolled at the time of the SNOR Census (SNOR Census Date). Students that are enrolled at more than one school are included only in their primary school of enrollment. This section defines those elements that are needed for the file creation rules that follow. Each element is defined as to its source (what CSIS record format it comes from) and how it is used. Some elements are used to define uniqueness while others are used to join together the records in which they are found.

Select and join records for each student as noted in the table below:

Unique Elements List: Generate one SNOR Student record for each unique set of these elements.

File Format	ID	Name	Criteria
INST GN NULL	14.03	Institution ID	KEY

Record Links: Join the following records together using the following Elements

INST GN NULL,	14.03	Institution ID	
ENRA SE NULL	05.03.0	School of Enrollment ID Number	
	3		
DEMO GN	01.02	CSIS Student Number	
NULL			
ENRA SE NULL			

Select only those records that meet the following criteria after they have been joined

INST GN NULL	14.03	Institution ID	Digits 8 through 14 <> '0000000'
ENRA SE NULL	05.01	Enrollment Date	On or before SNOR Census Date.
ENRA SE NULL	05.03.0 3	School of Enrollment ID Number	Digits 8 through 14 <> '0000000'

			((05.11 High School Graduation Status = 110 or 120 or 170 or 190 or 210)
			05.12 Graduation Date is on or after SNOR Census Date))
DEMO GN NULL	02.06	Schooling in the United States	If 05.20 First Enrollment in a U.S. School is <= 3 calendar years prior to
DEMO GN NULL	05.20	First Enrollment in a U.S. School	SNOR Census Date;
			OR
			If 05.20 First Enrollment in a U.S. School is > 3 calendar years prior to
			SNOR Census Date and 02.06 Schooling in the United States = Y

Element Definitions

Record A

For each Reporting Entity, there will be one SNOR "A" record created and the record will contain the County Code, District-School Code, Reporting Entity Name, Contact Person's Name, Title, Address, Phone Number, Fax Number, Email Address, Count of Eligible Immigrants within the Reporting Entity, Date of Submission, and confirmation if the Reporting Entity has no eligible immigrant students.
